

Instructions

- * Tomorrow is your first hackathon, so strictly avoid using any online AI-based tools or extensions (e.g., ChatGPT, Sider, Copilot) for assistance.
- * Remove all copy-paste extensions or any software/plugins that can provide unauthorized help.
- * Mac-Book is not allowed.
- * Ensure your laptop is free of any unauthorized software or tools that can assist in cheating, including any AI-based extensions or code-assistance tools.
- * Disable or uninstall any browser extensions that can auto-complete, suggest code, or retrieve answers from the web.
- * Use only your college-provided email ID for logging into the exam portal or hackathon platform.
- * You are not allowed to share your screen or collaborate in any unauthorized way with others.
- * If caught using any unfair means, such as external tools, plagiarism, or screen sharing, it will result in UFM (Unfair Means) charges, and no appeals or excuses will be accepted.
- * Any suspicious activity may result in immediate disqualification (UFM)
- * Make sure to carefully follow all rules and guidelines to avoid penalties or disqualification from the event.
